

Zeutschel Scan Studio

The best of both worlds

All kind of originals, highest requirements – one system

The Zeutschel ScanStudio combines the best of two worlds: the world of studio photography with the world of professional scanners. The result is a digitisation system that not only redefines flexibility and future-proof design, it meets the highest demands of image quality, has a productive operation with reliable results and is also easy-to-use.

The Zeutschel ScanStudio comprises a camera system with digital back, a precision shutter (MTBF > 3 million), interchangeable lenses and the ErgoLED lighting system with flexible directed lighting. All system components are embedded in a solid, modular base unit.

New standards of flexibility

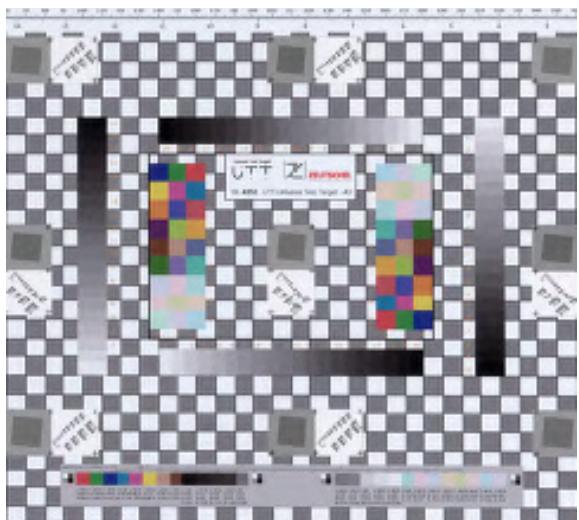

Designed as a completely modular system, Zeutschel ScanStudio offers the user unprecedented levels of flexibility. The system can be expanded or upgraded at any time as requirements grow or new tasks are added.

Showcasing interchangeable lenses and replaceable and upgradeable digital back cameras up to 150 MP resolution, the system concept also features a variety of copy board systems. This includes transparency units, holders for the most common film formats, book cradles and copyboard tables for documents up to A1 size.

Richly detailed, colour-true and high contrast images

The Zeutschel ScanStudio offers an image quality exceeding the provisions of the established digitisation guidelines of FADGI, Metamorfoze and the ISO 19264-1 standard. This system solution uses the latest state of the art generation of digital back cameras from PhaseOne. The results are sharp, noise free and high contrast images that faithfully reproduce even the finest details.

Each perfect picture requires the right lighting. Instead of a flash, the Zeutschel ScanStudio uses the special Zeutschel ErgoLED ergonomic lighting system with two flexible, adjustable LED lamps. This ensures glare-free, directed lighting and economic operation.

Reliable results, user-friendly, highest productivity

The Zeutschel ScanStudio is controlled using the OmniScan software, a proven tool for implementing efficient digitisation workflows in archives and libraries.

In the software, predefined workflows can be created containing all the major settings for the respective task.

The Zeutschel ScanStudio has achieved the markets' fastest shutter speeds and scanning cycles for high-resolution digital camera capture.

Software OS 12 for ScanStudio

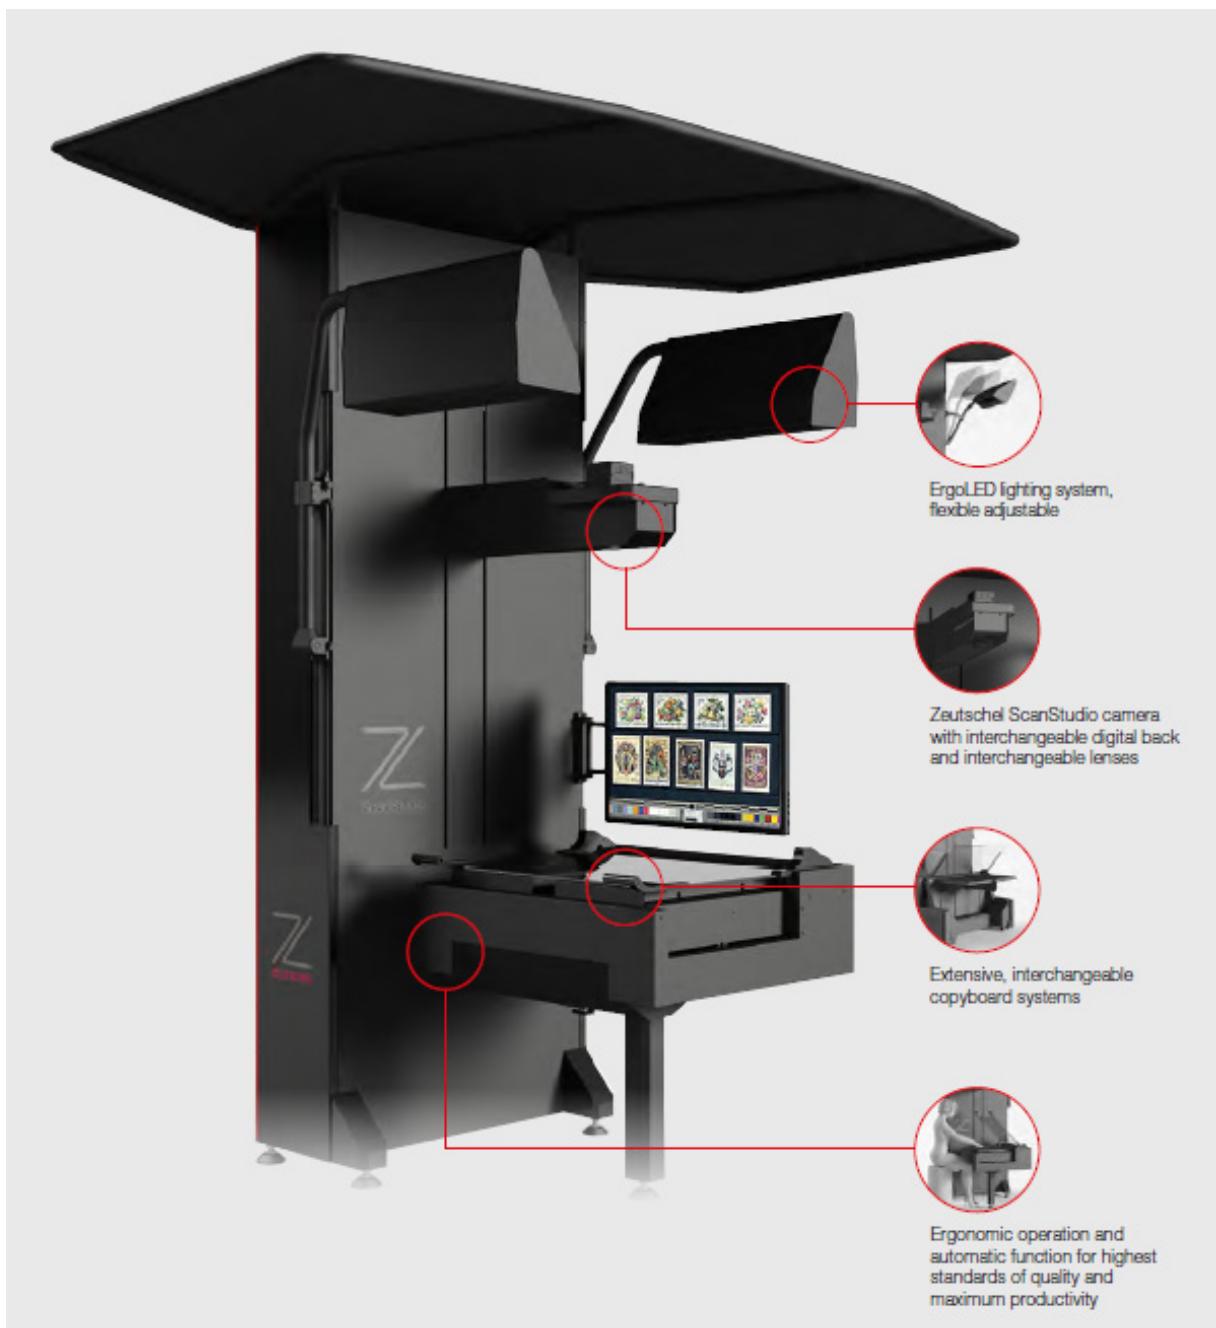

- Scan software and post-processing software in one
- Wide range of filters and capturing tools
- Express mode for recurrent jobs
- Job-based operation mode / jobmode
- 48 bit / 16 bit grayscale
- Multi-threading for most efficient working
- Saving in all formats at the same time, also raw image
- Metadata implementation
- Graduation curve adjustment
- Possible implementation of quality management tools
- Software for book curve correction for optimised image results

Copyboard Systems

Roll-in/roll-out interchangeable A1 copy board systems.

- **Book cradle OT 180 H 35 XL** with self-opening glass plate with adjustable opening angle for max. book thickness of 350 mm.
- **Book cradle OT 180 H 50 XL** with self-opening glass plate with adjustable opening angle and changeable book plates for max. book thickness of 500 mm.
- **Book cradle OT 90** for old and valuable books with a max. book thickness of 240 mm.
- **Top light table AT1** for opaque originals (e.g. technical drawings, geographic maps); max. format of original, opened: 1070 × 675 mm.
- **Vacuum table** with adjustable vacuum zone up to A2+.
- **Toplight table** with working area up to A2. Adjustable illumination strength, adjustable light spectrum.
- **Film carrier** for film formats 35 mm up to 8 x 10".
- **Glass negative** carrier with fourway masking.
- **Top light table** A0 with and without glass plate for formats >A0.

Made in Germany

Climate neutral production

Sustainable materials

The advantages at a glance:

- Modular, universal system for all digitisation tasks
- Interchangeable digital back cameras and lenses
- Copyboard systems for a wide range of documents
- Highest productivity – short scanning cycles
- Reliable results through predefined workflows
- Automatic functions – auto-focus, automatic exposure control, colour profiles & automatic scanning
- Zeutschel ErgoLED lighting system for shadow & reflection free results
- Software for book curve correction for optimised image results

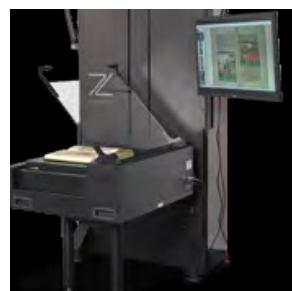

Options & Accessories

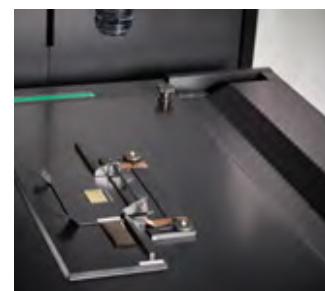

Backlight Unit A2

Kit 90° for A1 Bookcradle

ScanStudio with A2 bookcradle

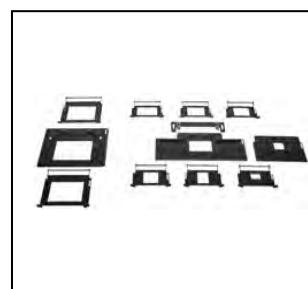

Backlight Table with film carrier for filmstrips

Kit 140° – 90° for A1 Bookcradle

Kit 90° for format DIN A2

Various holders for micro films

Control Panel

Kit 140° – 90° for A2 Bookcradle

Holders for glass plates, continuously adjustable

OS QM Tool & test targets

Photo table with glass plate and soft pad for very careful handling

Technical Data	Scan Studio A2	Scan Studio A1	Scan Studio A0
Sensor			
Sensors		100 / 150 MP	
Technology		CMOS	
Sensor format		medium format (4,5 x 6 cm)	
Data depth		16 bit	
Dyn range in f-stops		15	
Dyn range in opt density		4,5	
Max opt. resolution		100 MP up to 9000 dpi / 150 MP up to 10000 dpi	
Camera Type			
Camera Type		Zeutschel ScanStudio Camera	
Shutter		rotary shutter MTBF > 3 Mio.	
Shutter speed		1/50 Sek. – ∞	
Lens range	60–240 mm 70 mm for format A2–A1 100 mm for format A7–A2 Macro lens 120 mm for format 24 x 36 mm–4 x 5" at 100 MP and 150 MP	60 – 240 mm 70 mm for format A2–A0 100 mm for format A7–A2 Macro lens 120 mm for format 24 x 36 mm–4 x 5"	
Lens detection		optical, automatic	
Reprostand			
Dimensions (H x D x W) [mm]	2400 / 800 / 1200	2400 / 1035 / 1200	
Working height	700–900 mm pre-adjustable	800 mm with ATO 800/350 with glass plate 800/350 mm	
Autofocus		✓	
Environmental light control		glare and stray light control	
Illumination			
LED		full spectral LED	
Illuminance		adjustable 500–4500 lx	
ErgoLED		ergonomic design, non dazzling, soft dimm auomatic	
Performance			
Scanning time		50 ms (typical)	
Cycle time		3,4 – 6 sec, (100 MP), 7-9 sec (150 MP), typical values	
Standards			
ISO 19264		Quality level > A	
FADGI		Quality level > 4 Star (up to A2); Quality level > 3 Star (A1; A0)	
Metamorfoze		Quality level > Metamorfoze Full	
Electrical & Conformities			
Primary power		110–240 V 50/60 Hz 480 VA	
Electrical safety		60950-3; IEC 62368-1:2014	
EMC		EN 55022; EN 55024; EN 61000-3-2; EN 61000-3-3 US, CAN: FCC, Part 15 class B, ICES-003 Class B	
Lamp system		compliant to EN 62471 "Photobiological safety of lamps and lamp systems"	
Software			
Operating system		Windows 10 (64 Bit)	
Software		min. OmniScan OS 12.12 (64 bit)	
Color management		according to ICC Standard	
Book curve correction		optional
